---

*Results-oriented Full-stack Developer, creating efficient and scalable applications that drive business growth. I innovate and optimize systems, enhancing performance and user experience. My background as an engineer emphasizes my skills. I am ready to apply my experience in various sectors.*

## WORK EXPERIENCE

---

### Full-stack developer

Estoko Logistics

Barcelona, Spain

April 2023–September 2024

- Maintenance of the company's ERP and implementation of new features using **NextJS**, **React**, **TypeScript**, and a **MySQL** database.
- Designed and developed a new microservice for the ERP, with a **GraphQL** API, capable of handling information for over 1000 warehouses and reducing leads acquisition time from almost 1 week to less than 1 day.
- Optimized endpoints and **SQL** queries, reducing response time from 20 seconds to less than 1 second.
- Improved the **Agile** environment by standardizing task definitions in **Jira**, reducing daily meeting times from over 30 minutes to less than 10 minutes.

### Full-stack developer

Freelance

Barcelona, Spain

September 2022–December 2022

- Developed SPAs using a **MERN** stack (**Mongo**, **Express**, **React**, **Node**) with **Redux** for state management.
- Implemented unit tests with **Jest**, increasing coverage to over 80%.

### Junior engineer

Oxigen Salud

Barcelona, Spain

July 2022–September 2022

- Optimized storage layouts, streamlining production processes.
- Improved truck loading and departure times by automating Excel spreadsheets.

## EDUCATION

---

### Bootcamp full-stack web development

ISDI Coders

Barcelona, Spain

December 2022

### Master's degree in Management Engineering

UNIVERSITAT POLITÈCNICA DE CATALUNYA – ESEIAAT

Barcelona, Spain
